**EWM2000
Software
W2C01450**

Electronic EWM2000

The Service Manual to electronic unit EWM2000 serves as a basis.

The main-electronic unit EWM2000 is equipped with a new software W2C01450.
The software version is shown on the type plate of the electronic kit.

The replacement of the main-electronic in appliances with software version W2C01352 / W2C01353 to software version W2C01450 will change all programs except cotton A/A 40°C / 40 - 60 MIX.

User-interface

Also the different user-interfaces have been changed.

The replacement of the electronic input/ output unit in devices with software W2C01352 / W2C01353 will not change any previously programs.

Compared to electronic unit EWM2000 with software W2C01352 / W2C01352 the following changes have taken place:

Night cycle

- This function is available for all cotton and synthetic cycles.
- Depending on device version, this function can be selected via the spinning key or a separate key.
- The number of rinses increased from 3 to 6 rinses. All rinses are without a spin phase.
- The program ends with rinse hold.

Super rinse

- More water during rinses.
- One extra rinse added.
- No recirculation pump during every rinse.
- The mainwash and the first rinse are without a spin phase.
- The second and the third rinse end with spinning at 450 1/min.
- Final spin at max. speed.

Extra quick for cotton 40° - 60°

- Very quick program (duration of cycle is about 60 min.) for daily worn laundry.
- The washload is 3,5kg (average household load).
- The number of rinses increased from one rinse to two rinses.
- The program cotton/linen 50° is not longer to combine with the option quick or time-saving.

Extra quick for synthetics 40° - 60°

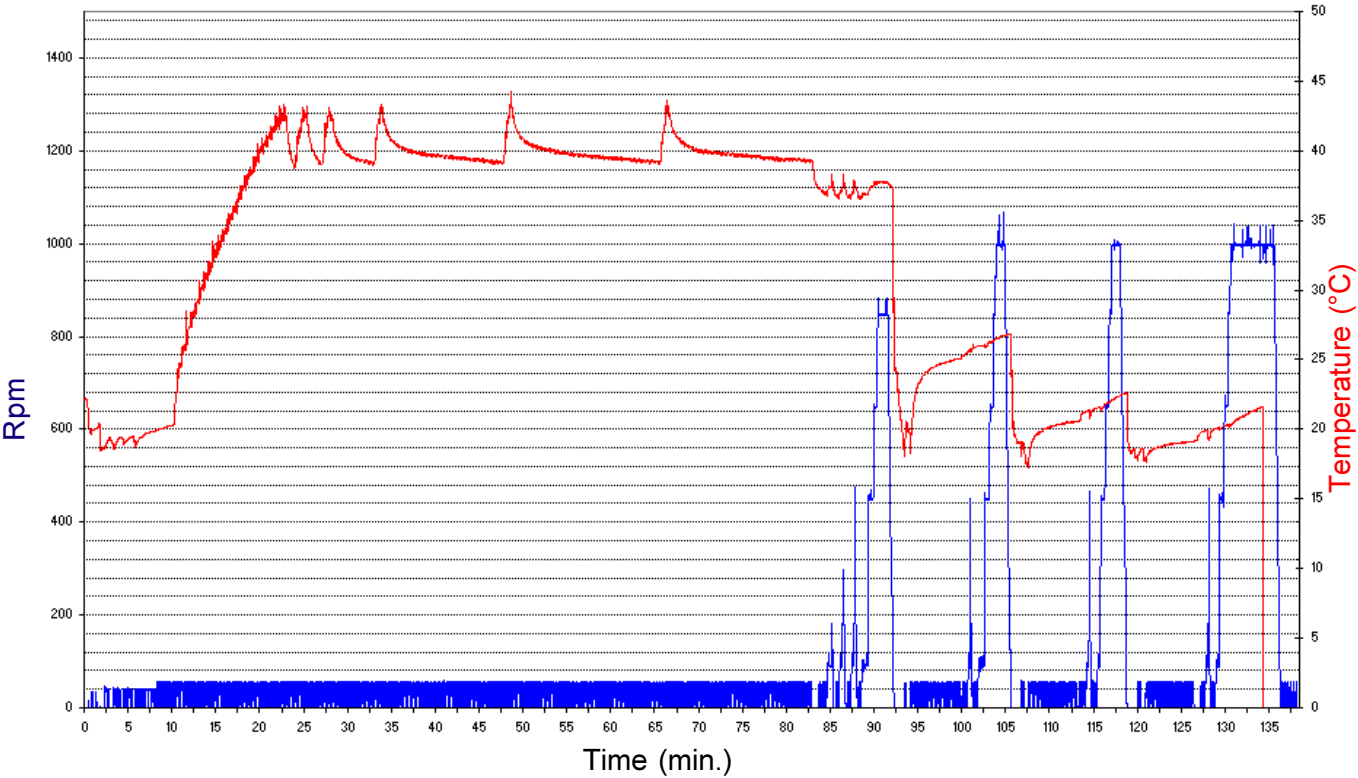

- Very quick program (duration of cycle is about 45 min.) for daily worn laundry.
- The washload is 1,5kg.
- The number of rinses increased from one rinse to two rinses.

Cotton A/A 40° / 40 - 60MIX

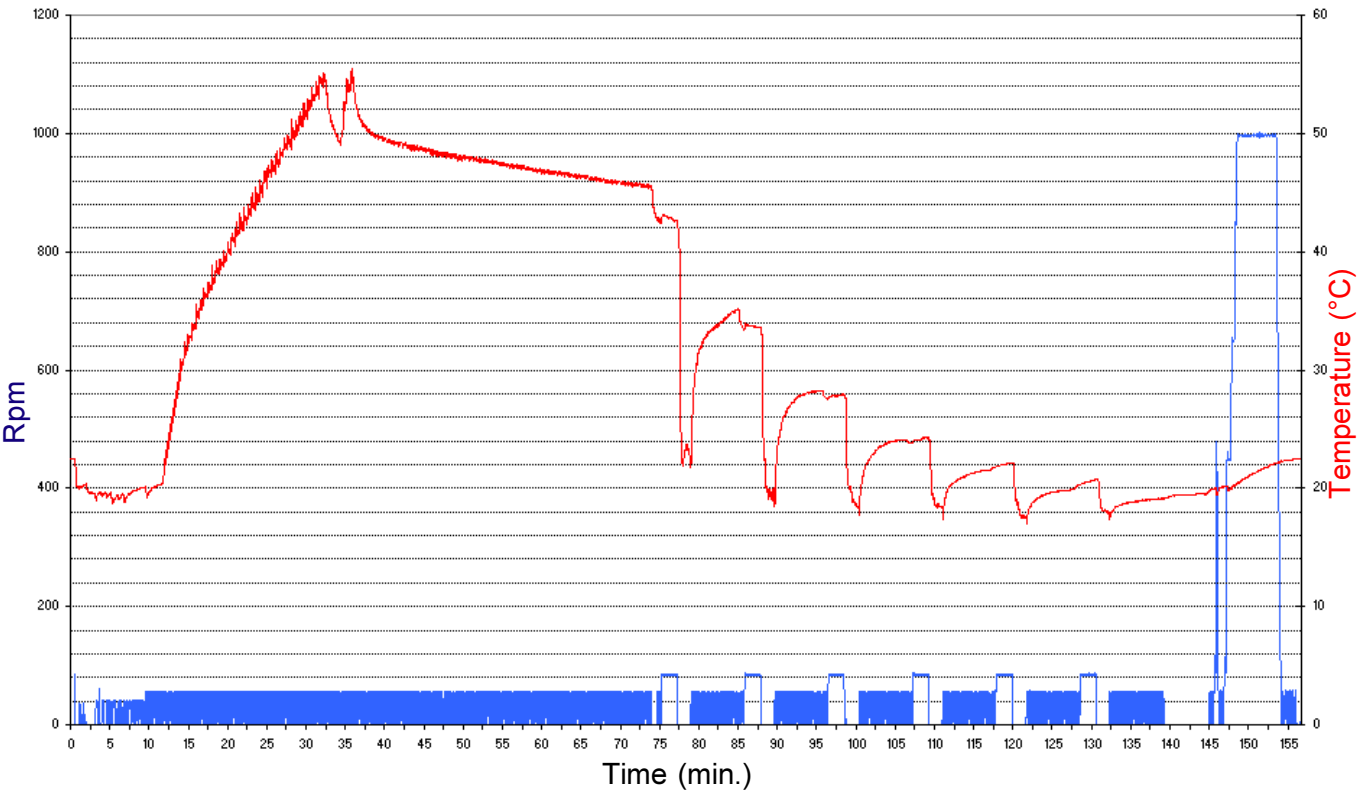

- The washing performance and the energy-label increased to "A".
- The temperature and the mechanics have been coordinated.
- By using lower temperature the length of the washing cycle increased.
- The cycle duration is about 140 min.
- The replacement of the electronic EWM2000 and the user-interface unit in devices with software W2C01352 / W2C01353 will change the cotton/coloured 40°C program to 40 A/A / 40 - 60 MIX.
